

Providence Approved Color Wheel

October 2010

The Providence Board of Directors has approved the following list of colors for our expanded color wheel of exterior paint colors for the outside body colors, trim colors, and shutter / front door colors. The colors listed are an expanded choice of colors that includes most of the original colors offered by the builder as well as additional colors used by the same builder.

As you may know, the original paint manufacturer used by the builder has merged with another paint manufacturer. In order to make it more convenient for our residents, the Board has matched all the approved colors to the Valspar paint sold at the closest home improvement store, Lowe's. However, Providence residents are encouraged to choose a color listed below, view it at Lowe's and take the information to your favorite paint retailer to match the color.

NOTE: A resident may choose a body (house) color, a trim color for around windows and doors, and a front door/shutter color. All fascias and soffits must remain white.
