

New Exterior Color Request Form

We encourage you to select a color from the approved color wheel which is the quickest way to obtain an approval to begin painting your home. However, if you want to request the review and approval of a color that is **not** listed on the approved color wheel, you must complete and submit your request on this **New Exterior Color Request Form**. This must be completed and submitted to the Providence Board of Directors **before** submitting an Architectural Review Board (ARB) General Paint Form.

NOTE: You must submit **one** form for each paint color, i.e., Body, Trim, and Front Door/Shutter. All information must be completed and original samples of the paint color must be included.

Please allow thirty to sixty (30 to 60) days from the time we receive your submission before receiving the results of this review.

This section to be completed by homeowner (Please Print!)

- Date of Request: _____
